Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Zach Ferguson

Just because Duke Energy owns the Governor of North Carolina, it doesn't mean they own the state. They are a service provider!!

Provide the service and get off the people's backs and out of our pockets.

Sincerely,
